

CiscoWorks SIMS Implementation Program

Rapid, Seamless and Cost-Effective Deployment for CiscoWorks SIMS

:: EXPERIENCED Implementation of Advanced and Complex Technologies

Successful implementation of advanced and complex technologies requires a substantial commitment of resources, time and expertise that may be otherwise unavailable. The CiscoWorks SIMS Implementation Program from NetCom Systems cost-effectively delivers the resources and expertise required to rapidly design and implement your CiscoWorks Security Information Management Solution.

:: END-TO-END Implementation Service

NetCom Systems' core offering includes project management, requirements analysis, on-site survey, design review, software configuration, on-site implementation and mentoring. Because each project has unique requirements, NetCom Systems offers services with standard statements of work and pricing or customized services designed to meet the scope of your implementation.
